THE REPLY FILED 22 June 2009 FAILS TO PLACE THIS APPLICATION IN CONDITION FOR ALLOWANCE.

1. ☒ The reply was filed after a final rejection, but prior to or on the same day as filing a Notice of Appeal. To avoid abandonment of this application, applicant must timely file one of the following replies: (1) an amendment, affidavit, or other evidence, which places the application in condition for allowance; (2) a Notice of Appeal (with appeal fee) in compliance with 37 CFR 41.31; or (3) a Request for Continued Examination (RCE) in compliance with 37 CFR 1.114. The reply must be filed within one of the following time periods:

- a) ☒ The period for reply expires 3 months from the mailing date of the final rejection.
b) ☐ The period for reply expires on: (1) the mailing date of this Advisory Action, or (2) the date set forth in the final rejection, whichever is later. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of the final rejection.

Examiner Note: If box 1 is checked, check either box (a) or (b). ONLY CHECK BOX (b) WHEN THE FIRST REPLY WAS FILED WITHIN TWO MONTHS OF THE FINAL REJECTION. See MPEP 706.07(f).

Extensions of time may be obtained under 37 CFR 1.136(a). The date on which the petition under 37 CFR 1.136(a) and the appropriate extension fee have been filed is the date for purposes of determining the period of extension and the corresponding amount of the fee. The appropriate extension fee under 37 CFR 1.17(a) is calculated from: (1) the expiration date of the shortened statutory period for reply originally set in the final Office action; or (2) as set forth in (b) above, if checked. Any reply received by the Office later than three months after the mailing date of the final rejection, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

NOTICE OF APPEAL

2. ☒ The Notice of Appeal was filed on 22 June 2009. A brief in compliance with 37 CFR 41.37 must be filed within two months of the date of filing the Notice of Appeal (37 CFR 41.37(a)), or any extension thereof (37 CFR 41.37(e)), to avoid dismissal of the appeal. Since a Notice of Appeal has been filed, any reply must be filed within the time period set forth in 37 CFR 41.37(a).

Supervisory Patent Examiner, Art Unit 1621

Continuation of 11. does NOT place the application in condition for allowance because: Applicants' argument filed 22 June 2009 have been fully considered but they are not persuasive because the obviousness-type double patenting rejection of claims 1-8 as being unpatentable over claims 1-5 of copending Application No. 10/573,723 is maintain for the reasons stated in the previous Office Action dated 04/14/2008. Additionally, the rejection of claims 1-8 under 35 U.S.C. 103 as being unpatentable over Javdani et al., {US 7,285,678, same as WO 2002076934} is maintained for the reasons set forth in the previous Office Action of 04/14/2008. Javdani et al. teach that mesotrione is precipitated from the remaining reaction mixture through a series of pH adjustment steps and isolated by filtration or centrifugation. See column 3, lines 25-36. The rejection of claims 1-8 under 35 U.S.C. 103 as being unpatentable over Ueda et al., {US 4,937,386} is withdrawn because Ueda et al. do not teach all the claims limitation. Ueda et al. teach a process for the purification of 4,4,5-trimethyl-2-(2-nitro-4-methylsulfonylbenzoyl) cyclohexane-1,3-dione, which is different from mesotrione, and at a pH of 1 or lower while Applicants' claim a process for reducing the cyanide levels in a mesotrione sample at a pH of 9.5 or higher.
